Dimensions

- Blister dimensions (WxDxH): 17 x 25 x 6 cm
- Inner carton dimensions WxDxH: 17.7 x 27.2 x 19 cm
- Master carton quantity: 4
- Product dimensions (WxDxH): 12 x 7.5 x 2.35 cm
- Product weight: 0.096 kg

Highlights

12V car plug

The charger has a special adapter that fits into the cigarette lighter socket of your car. This means that next to charging from the mains you can also do it when you are on the move.

Exclusive compact design

The exclusive stylish and compact design makes it easier for you to travel with the charger and even more fun to use.

Charge AA and AAA

The charger is designed to charge AA and AAA batteries.

Smart charge protection

The special sensor detects when the batteries are fully charged and switches over to trickle charge to keep your batteries full and ready for use. The overcharge protection prolongs the life of your batteries by preventing the damage caused by overcharging.

Trickle charge

Rechargeable batteries all suffer from self-discharge over time. The automatically started trickle charge keeps your batteries full and ready for use when they are kept inside the charger and in the power outlet.

2300 mAh MultiLife AA included

The 2300 mAh of energy keeps your audio player or digital camera going longer.
